

## **THAT'S A WRAP FOR THE 2020/21 KIWI SEASON**

Number of eggs in Incubation Room	0
Number of kiwi in Nocturnal House	2
Number of chicks hatched this season	37

On May 3<sup>rd</sup>, we farewelled 'Akoo' our 33<sup>rd</sup> rowi, and 37<sup>th</sup> chick for the 2020/21 season (above).

After 6 ½ weeks of rearing, this lovely little chick reached a whopping **567 grams** and was transferred to Willowbank Wildlife Reserve.

'Sparkee', our 7-year-old, juvenile Tuatara recently underwent their annual shed, to reveal a stunningly fresh undercoat (below).

Like snakes, Tuatara shed the thin, outer layer of their skin every year. This ensures they rid themselves of any parasites, in-grown scales, or other nasties, leaving them fresh and healthy for another exciting year ahead!

Next month, our **super family deal** returns - just in time for School Holidays!

Valid for visits from Saturday July 10<sup>th</sup> to Sunday July 25<sup>th</sup> 2021!

- Maximum of 2 Children per Adult
- Only valid with 24-hour General Pass

**NEW!**

Check out our **NEW Tech-Gloves!!!**

Made from **Lothlorian™**'s signature Merino-Possum blend, these gloves feature 'conductive yarn' to keep fingers warm, **AND** maintain the ability to use touch-screen devices!

As we head into the chilly winter months, we have introduced a **brand new range** of merino clothing and accessories!

Comfy t-shirts, cosy wraps, stylish ponchos, and beanies in a variety of new colours from **Lothlorian™** are just a few goodies added to our store range. Check out our website for our **ONLINE** store today!
